PROFESSIONAL SUMMARY

Software Engineer with 4 years of experience developing enterprise ERP applications at Oracle India. Proficient in Java, Spring Boot, Oracle ADF, REST APIs, SQL, PL/SQL, and Oracle Fusion Applications, with experience delivering customer-facing features, resolving 50+ production issues, and building scalable enterprise solutions for global customers.

PROFESSIONAL EXPERIENCE

•Senior Applications Software Engineer

October 2025 – Present

Oracle India Pvt. Ltd., Thiruvananthapuram, India

- Leveraged Oracle AI Assistant, OpenAI Codex, and ChatGPT to accelerate software development, debugging, root cause analysis, technical documentation, and feature implementation.
- Designed developed and delivered enterprise features for Oracle Fusion ERP across Project Management (PPM) and Foundation & Control modules, contributing to scalable backend services using Java, Oracle ADF, Spring Boot, SQL, PL/SQL, and REST APIs.
- Designed and enhanced MVC-based Ext JS user interface components and modernized legacy Ext JS modules to Pure JavaScript, improving maintainability and user experience.
- Led the development of Engineering & Construction (E&C) enhancements, including FBID-based bulk data import, Change Order Automation, and Contract Updates.
- Led root cause analysis and resolution of critical production issues by collaborating with customers, Product Management, QA, and cross-functional engineering teams.
- Mentored junior engineers through technical guidance, code reviews, and knowledge sharing.

•Applications Engineer

August 2022 – September 2025

Oracle India Pvt. Ltd., Thiruvananthapuram, India

- Delivered **10+ customer-facing enhancements** across Oracle Fusion Project Management, including Change Orders, Change Requests and Milestone-Based Billing features.
- Resolved **50+ production issues** through root cause analysis, significantly improving application stability and customer experience.
- Designed and implemented backend business logic using Java, Oracle ADF, SQL, and PL/SQL for enterprise ERP applications.
- Developed, tested, and validated REST APIs supporting quarterly Oracle Fusion product releases.
- Developed automation test suites comprising **100+** JUnit, PL/SQL, and REST API test cases, reducing manual regression effort and improving release readiness.
- Collaborated with Product Management, QA, and global engineering teams throughout the software development lifecycle in an Agile environment.

TECHNICAL SKILLS

AI & GenAI: Prompt Engineering, LLMs

Programming Languages: Java, JavaScript, Python

Backend & APIs: Spring Boot, Microservices, REST APIs, FastAPI, Node.js

Frontend: Oracle ADF, HTML, CSS, JavaScript, Ext JS

Database: Oracle Database, MongoDB, SQL, PL/SQL

Testing & Automation: JUnit, REST API Testing, Postman

Development Practices: Agile, Scrum, SDLC, Cross-functional Collaboration

Version Control & Tools: Git, Docker, VS Code, BugDB, Confluence

EDUCATION

•Bachelor of Technology (Computer Science and Engineering)

Sree Chitra Thirunal College of Engineering, APJ Abdul Kalam Technological University

2018 – 2022

CGPA: 9.51/10

PROJECTS

•Satellite Image to Map Generation using GANs

Deep Learning | Python

- Developed a deep learning model for satellite image-to-map translation using Generative Adversarial Networks (GANs).
- Implemented image preprocessing, model training, and performance evaluation for image-to-image translation.
- **Technologies:** Python, GANs

•E-Ballot System

Web Application

- Developed a secure online voting application with user authentication and vote management.
- Designed backend APIs and database integration for efficient election management.
- **Technologies:** Node.js, MongoDB, HTML, CSS, JavaScript

COURSES

- IBM Generative AI Engineering Professional Certificate
- FastAPI – The Complete Course (Beginner + Advanced)
- Beginner Full Stack Web Development: HTML, CSS, React & Node
- Python for Data Science, AI & Development – IBM
- AI for Everyone – Andrew Ng
- Generative AI: Prompt Engineering Basics

(In Progress)

ACHIEVEMENTS

- College Rank 3 – B.Tech Computer Science & Engineering (CGPA: 9.51/10)
- Secured **10.0/10.0 SGPA** in Semester 4 of B.Tech Computer Science & Engineering.
- Second Prize – Web Page Design, ASCEND 2020 (Inter-college Technical Fest)
- School Rank 3 – Class XII, Chinmaya Vidyalaya Kunnumpuram (CISCE Board)
- Subject Topper (Class XII) – Scored **100/100** in Computer Science and Physics, and **97/100** in Mathematics
